QUALITY CERTIFIED MANAGEMENT SYSTEM NS-EN ISO 9001 :2008/ISO 9001:2008

Our Vision

To Create a globally healthy society through sports. Our passion for sports is what fuels us in achieving our goal.

Our Mission

To Provide the best goods and service related to the sports industry at the optimum cost, with the help of latest and best global business management practices, involving the best talent available in each area combined with the latest technological support.

Introduction

APEX Sports - is part of family managed Companies, established in 2005 and is presently managed by the third generation of the family. APEX Sports gradually expanded from Four Side modular of timber and machining of tongued and grooved floor boards and casing and capping for electrical wiring to full fledged joinery and carpentry shop manufacturing Sports floorings on mass production methods.

Over generations, APEX Sports has collected a vast field of technical and practical knowledge in technology, designing and manufacturing in the various engineering and industrial fields. Also available to us are diverse manufacturing facilities for various products.

APEX SPORTS -is India`s leader in the manufacturing and installations of flooring system and wall systems for a wide variety of uses.

APEX SPORTS products are brilliantly engineered either at our state-of-the-art factory or by international partners in the US & Australia All of our specialty floorings and wall systems are approved by world-renowned organizations like The World Squash Federation, Federation of International Basketball Associations, DIN etc.

QUALITY ASSURANCE

Our firm has built a strong reputation for delivering a wide range of sport surfaces with its innovative techniques combined with uncompromising quality standards. Therefore, we manufacture our range of sports courts using synthetic flooring and wooden flooring. Our products are stringently tested at every stage of production on various parameters. Our quality analysts are also responsible for capability, security and performance of the entire manufacturing process. with a sound quality division, we have been capable of serving a quality proven range of sports products to our reputed clients.

APEX SPORTS

APEX Sports deals in a wide Variety of wooden flooring. You can choose from floors made of Brazilian Cherry From So America, Maple form North America, Merbau from Indonesia, Paduk from Africa and Oak from Europe Currenty APEX Sports has over 14 wood species in it`s range.

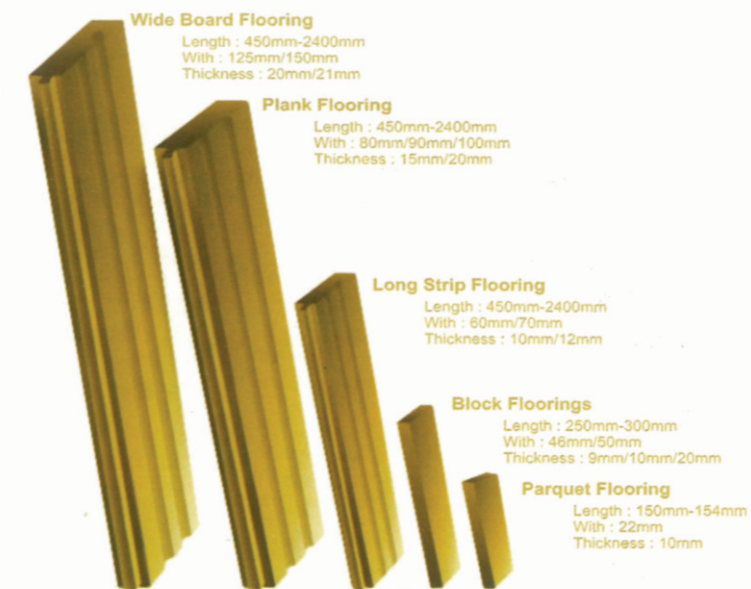

Our wood size reange from wide boards to parquet and includes planks, long strips and blocks of varying dimension; We ensure you get the choicest wood and sizze theat suit your requirements ideally.

OUR INFRASTRUCTURE

Based at Jaipur (Rajasthan, India), our sprawling infrastructure unit is divided into varied units for smooth and streamlined running of the business. Including production unit, quality control unit and R&D department, this facility is the center for all our trade related operations. We have equipped our unit with advanced and sophisticated machines, so as to confirm that the floors designed by us have smooth surface and are at par with global quality standards. Apart from this, every unit is managed by a pool of experts, which has rich expertise in this domain.

Our production unit is installed with machines like:

- Skirting
- T-molding
- Reducer
- End-cap

RESEARCH AND DEVELOPMENT

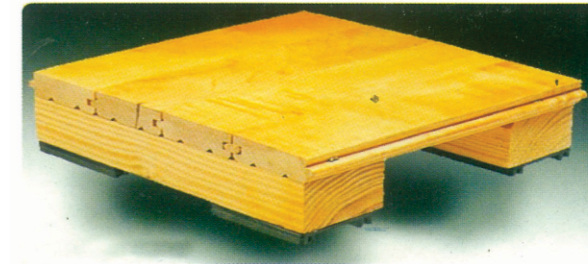

Cutting edge technology has become an important necessity for growth of enterprise. Therefore, we have deployed an advanced and sophisticated Research & Development unit at our premises. Our R&D department is managed by a team of experienced researchers, which is engaged in conducting comprehensive research activities to offer enhanced quality array of Indoor and Outdoor Sport Surfaces. Owing to our extensive works, we always try to comprehend the varied packaging demands of numerous sectors.

our R&D department works with following aims:

- Market analysis
- Product development
- Enhancing the quality of products while keeping them cost competitive
- Finding out ongoing manufacturing technologies

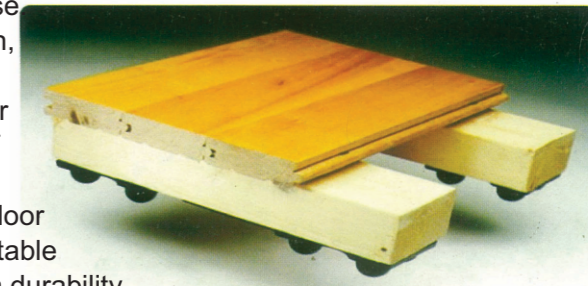

SPORTS SLEEPER:

Free-floating resilient sports floor system designed for multi-purpose use. Resi-Sleeper is recommended for basketball, volleyball, badminton, handball, racquetball, squash and other multi-purpose sports activities providing good resiliency, shock absorption, and performance - whether jumping, running or pivoting. Resi-Sleeper is suitable for all types of facilities and for players of all ages providing not only a multi-functional sports floor but also a floor at competitive budgets. The structural sub-floor treated sleepers provide the necessary support and space allowing suitable air circulation / ventilation for added dimensional stability and long-term durability.

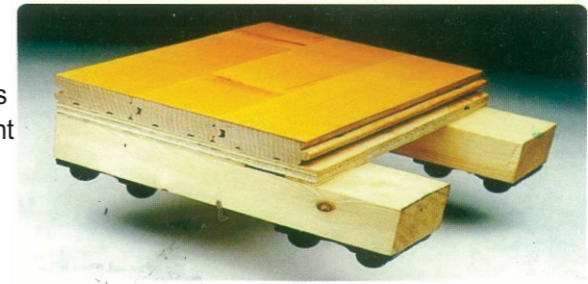

BI-POWER SLEEPER SYSTEM

Free-floating resilient sports floor system designed for multi-purpose use. Bi-Power Sleeper is recommended for basketball, volleyball, badminton, handball, racquetball, squash and other multi-purpose sports activities providing good resiliency, shock absorption, and performance - whether jumping, running or pivoting. Bi-Power Sleeper is suitable for all types of facilities and for players of all ages providing not only a multi-functional sports floor but also a floor at competitive budgets. The structural sub-floor treated sleepers provide the necessary support and space allowing suitable air circulation / ventilation for added dimensional stability and long-term durability.

BI-POWER SLEEPER MODIFIED:

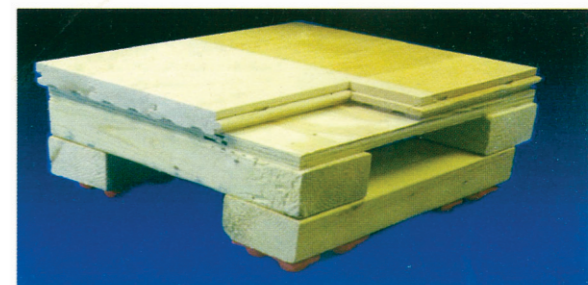

Free-floating resilient sports floor system designed for multi-purpose use as well as more rigorous activities. Bi-Power Sleeper Modified is highly recommended for basketball, volleyball, badminton, team-handball, dance, racquetball, squash, fitness & training and all other heavy duty sports activities at different levels of competition. Bi-Power Sleeper Modified achieves excellent resiliency, comfort, shock absorption, reduction of dead-spots and higher performance. The combination of sleeper and plywood sub-floor system provides the strength to support evenly heavier load distribution including bleachers, telescopic seating and other gym equipment. The plywood eases the impact from players and/or enhances the ball bounce as well as builds up the uniformity of shock absorption.

BI-POWER "DB" (DOUBLE BATTEN)

APEX SPORTS :- "Free-Floating Resilient" Bi-Power "D.B" (Sleeper) Modified Sport Surface: is another dynamically system in a line of innovations pioneered by APEX Sport Surfaces India. The Bi-Power "D.B" (Sleeper) Modified: designed for multi-purpose and heavy use indoor activities. This system was developed to allow more natural flow-circulation from Air, A/C, and stabilize the wooden structure.

Allows contractors and/or owners the use either Solid "RL" (Random Length) or "EL" (Extra Length) Maple Strips. Bi-Power "D.B" (Sleeper) Modified is highly recommended for basketball, volleyball, badminton, team-handball, racquetball/squash, dance, fitness, training and all other events at all levels of competition. Bi-Power Modified achieves excellent resiliency, comfort, shock absorption, ball bounce, reduction force, prevents dead-spots and attain higher performance. The combination of Double-Sleepers and Plywood sub-floor system provides the strength to support heavier load distribution including bleachers, telescopic seating and other gym equipment, as well as uniform distribution of the impact from players and/or enhances the ball bounce as well as builds up the uniformity of shock absorption.

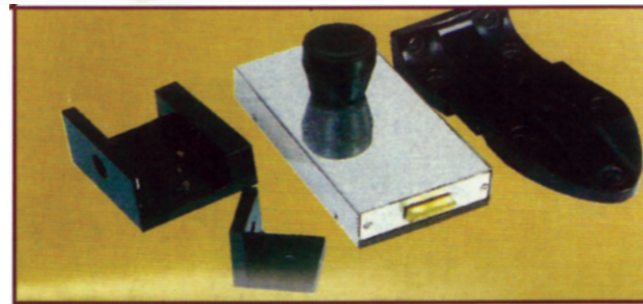

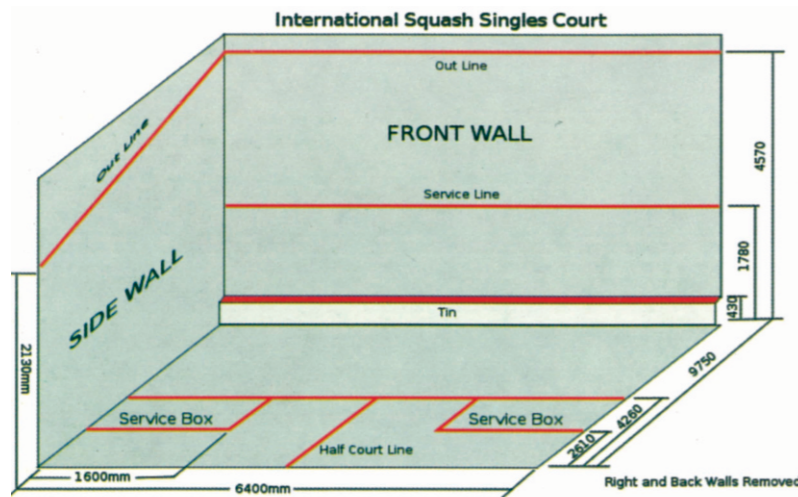

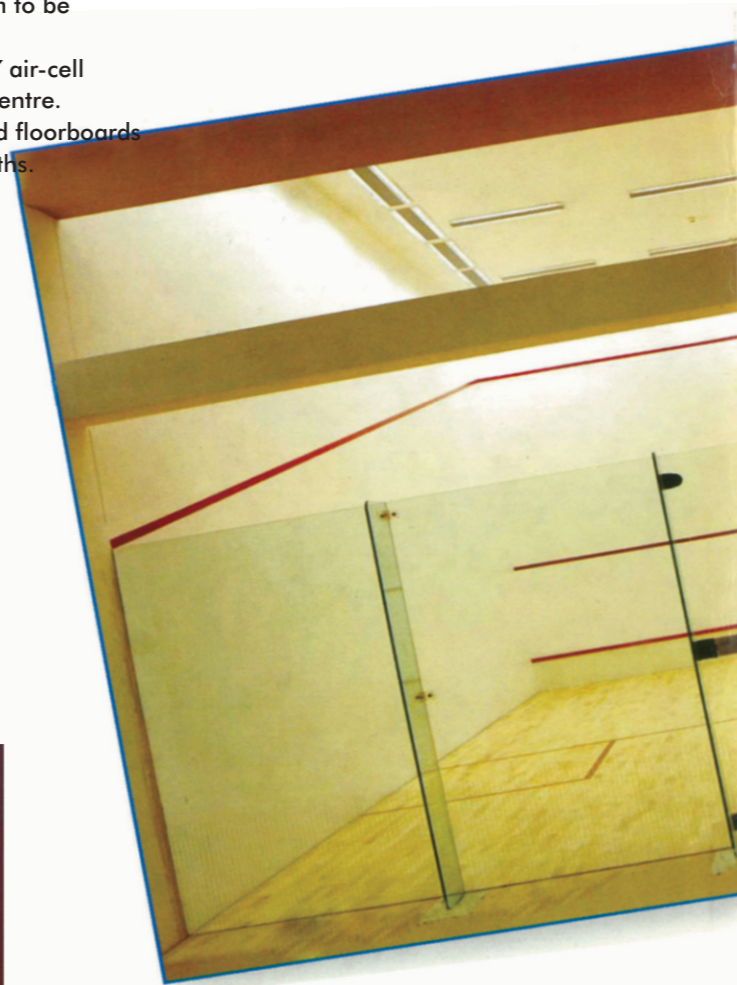

APEX SPORTS FLOORING

SQUASH COURT, BADMINTON COURT, MULTIPURPOSE HALL

Supply, installation and finishing of "APEX SPORTS" wooden Sports flooring complying with DIN, FIBA AND WSF International Standards as per following details :

- Vapour Barrier of 6mil. thickness.
- Anti-termite treated Spruce/Pine/Fir wood battens of size 70mm X45mm to be placed on the vapour barrier at 350 mm centre to centre.
- Runners to be fixed on the bottom side with 10mm. thick "AIR-CUSH" air-cell cushioning pads by staple through the two wings at 350 mm centre to centre.
- Kiln seasoned and treated **Maple / Beech / Heavea Wood** engineered floorboards assembled form two rows of tongue and grooved staves of varying lengths. The length of the floor boards will be 1700 mm & up in length except at the end of each row, 125mm width and thickness of 21mm. The gap between the wooden flooring and the surrounding tiled area will be 6 to 8 mm on all sides. The floor boards will be applied with one coat of polyurethane at the bottom.
- After installation the floor will be machine sanded with floor durn sander and finished with water base Ploish.
- Game line manrkings to be carried out in required colours before applying the finish coat.

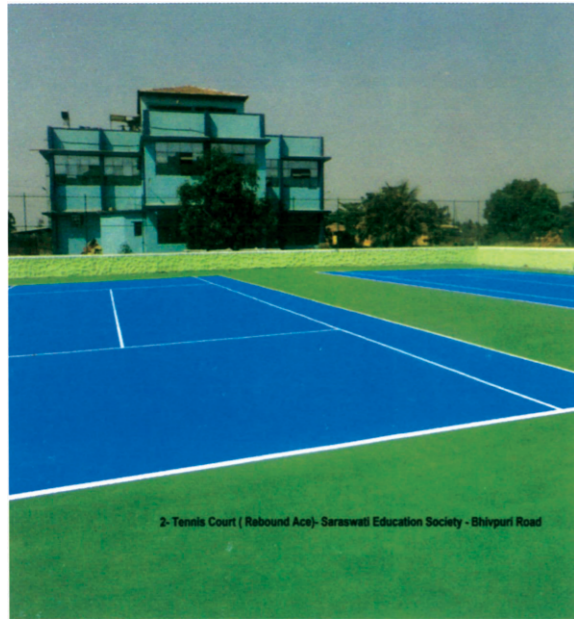

The **APEX Sports Surfaces India** system is designed with flexibility in mind. It provides the ability to specifically tailor a surface to match the facility usage and budget. This system is also extremely popular for Tournaments, Sports Clubs & Associations and private residences where the affordable cushion surface offers many benefits over previously used high maintenance systems. APEX Sports Surfaces India is also suitable for refurbishment and upgrading of hardcourts to a cushioned surface.

- Long lasting, medium level cushioning-easy on limbs and joints, does not or shine with use.
- Suitable for concrete or asphalt bases
- Excellent all weather grip
- Choice of 12 UV stable vibrant colors
- Five (5) year warranty
- IFT Classified Court Pace Medium or Slow
- Low maintenance, easy to clean and easily recoatable
- Pro International surface installed for 2010 Commonwealth Games.

"Work & Material Used as per Approved by Above Association"

2- Tennis Court (Rebound Ace)- Saraswati Education Society - Bhiwadi Road

THE CHOICE OF CHAMPIONS:

Tennis players and coaching professionals have high expectations of court performance and know the difference, like tony Roche.

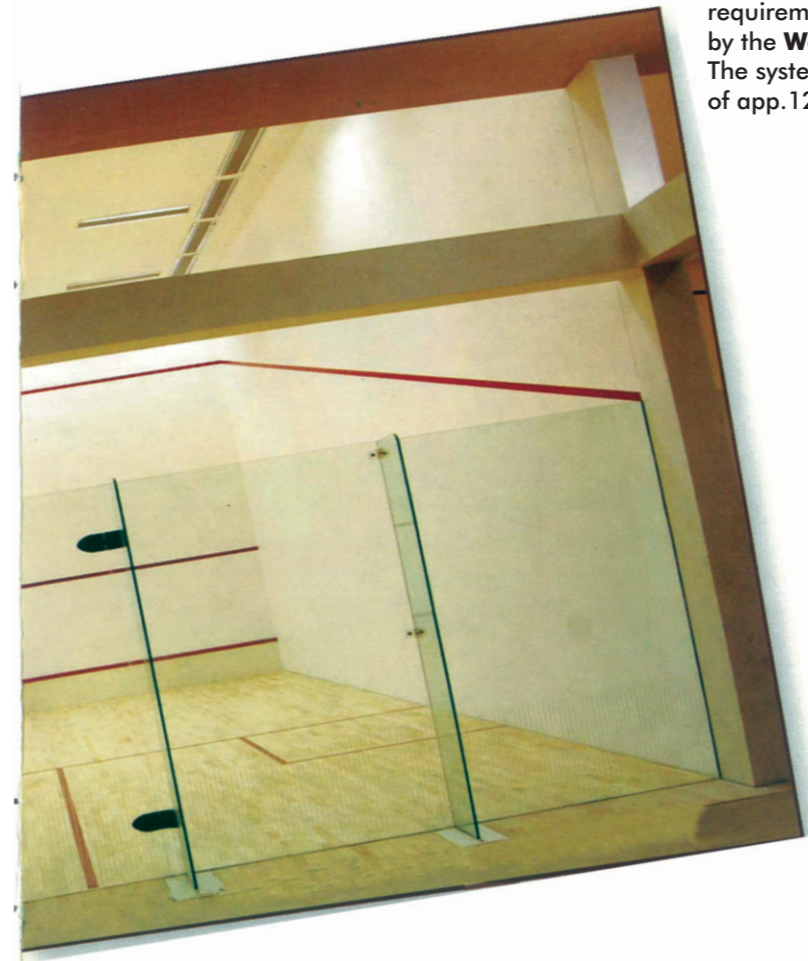

"I have played and coached on just about every surface there is. I regard APEX Sports Surfaces India as the best cushioned hard court on the market today. This firm yet perfectly cushioned hard court is a delight to play on in all conditions. APEX Sports Surfaces India tennis courts provide a quality, comfort and consistency every owner and player will appreciate".

Tennis Court - Alibag (Apex Sport Surfaces India) -9987967036

BENEFITS

- True bounce and ball response qualities
- Responsive to all styles of play
- All weather and long lasting
- All weather and long lasting
- Extended 5 year plus warranty
- Available in 10 non glare UV stable colours
- Selection of cushion and surface specifications
- Tennis Australia, ATP Tour, ATF & ITF Classification
- Extensive applicator network

APEX SPORTS GLASS BACK WALL SYSTEM FOR SQUASH COURT

- Supply and installation of free standing glass back wall made of 12mm thick toughened glass with 4 panels, 1 door, 4 fins, fixtures & fittings and all material required for erecting the glass wall.
 - The height of the glass wall will be 2130 mm above the finish floor level.
- WALL OPENING:**
- We will require 6400 mm clear opening between two side walls for installation of the glass.
 - We will also require a niche in each side wall and a concrete sub floor outside of the court area.

APEX COAT HARD PLASTER SYSTEM FOR SQUASH COURT

Supply and application of hard plaster system meeting specification requirements for squash courts laid down by the **World Squash federation**. The system consisting of a base coat and finish coat of a total thickness of app.12 mm and coated with washable paint system.

WOODEN SPORTS FLOORING

APEX Sports has taken the scope of wooden flooring beyond mere aesthetics to reveal its more rugged facet. With the development of an exclusive wooden sports flooring that conforms to international sports norms. Brilliantly engineered to last indefinitely, APEX Sports wooden sports flooring is technically superior in features like elegance, utility, durability, etc. The high point is player's comfort and safety: there's no impact on their knees, feet and ankles. APEX Sports wooden sports flooring have helped players develop into champions. Moreover, APEX Sports wooden flooring offers a unique combination of style and sophistication

AREAS OF APPLICATION:

- Indoor Badminton court
- Squash Court
- Multipurpose Hall
- Indoor Basketball Court

APEX Sport Surface India

Constructions of Air-cush Sports Flooring

PROVEN SUPERIORITY

- Excellent resilience.
- Premium looks and high performance.
- Natural finish or with non-skid polyurethane lacquer.
- Solid wood all through - no de-lamination as in multi-ply or laminated construction.
- Ideally suited for squash, badminton, basketball, volleyball, gymnasium, aerobics, yoga, table-tennis, gymnastics, health clubs, auditorium & multipurpose halls.
